

Subject: Request Regarding Manuscript Title with a few corrections

Dear **Dr. Soheil Eagderi**,

I hope this email finds you well and safe.

I want to express my pride and gratitude for your kind cooperation in accepting my research paper for publication in your journal. I truly appreciate the valuable insights provided by you and the editorial board, which have greatly enhanced the paper's content.

1- I am writing to kindly request your assistance, if possible, in retaining only the original manuscript title (**First record of the monogenic *Gyrodactylus magadiensis* Dos Santos, Maina & Avenant-Oldewage, 2019 from the gills of the red belly cichlid fish *Coptodon zillii* in Iraq**). Instead of the new title, where the scientific names should be corrected (**First record of the monogenic *Gyrodactylus Magadiensis* Dos Santos, Maina & Avenant-Oldewage, 2019 from the gills of the red belly cichlid fish *Coptodon Zillii* in Iraq**). Any changes to this title would present administrative difficulties for me, as my university's scientific committee has already approved it. Furthermore, this research paper is one of the key submissions for my promotion, and any alteration would complicate the process.

2- There is also a mistake beside my name:

Aisha Sulaiman Obaid\*1, \*, Kefah Naser Abdul-Ameer

No need for the second star.

It is better to write:

Aisha Sulaiman Obaid \*<sup>1</sup>, , Kefah Naser Abdul-Ameer<sup>1</sup>

3- In Keywords, there is also a mistake; the word (**parasit**) should be parasite.

4- Tables and Figures done very well, only one missing **Figure of the Iraq map**.

5- One more thing, kindly change the title in the **acceptance letter**

Thank you very much for your understanding and support.

Best regards,

Aisha Sulaiman Obaid
